

Carlos Rivas

Full-Stack Web Developer

Hi there! I'm Carlos Rivas Juarez, a full-stack web developer and proud graduate of The Coding Boot Camp at UNC-Chapel Hill. My journey in web development has equipped me with HTML, CSS, JavaScript, React.js, Git, and more, acquired through engaging virtual classes and hands-on projects. My strong background in customer service has shaped me into an effective communicator and problem-solver, excelling in teamwork and client interactions. As a bilingual English and Spanish speaker, I adapt well to diverse settings and am committed to continuous learning and self-improvement. My work experience ranges from evaluating vehicle conditions at CarMax to hardwood floor installation and cashier/customer service roles in the food industry. By blending my technical skills with my exceptional interpersonal abilities, I'm excited to contribute positively to your team and projects.

High School Diploma

| Aug, 2015 - Jan 2019

Certificate in Web Development At UNC

| Chapel Hill, NC, USA

| Dec 2021 - Jun 2022

The Coding BootCamp at UNC

The provided part-time coding curriculum includes both front-end and back-end technologies, giving students thorough training to become full-stack web developers. The curriculum covers computer science concepts that are applied to **JavaScript, algorithms, effectiveness, time complexity, big O notation, data structures, browser-based technologies like HTML/CSS, JavaScript/jQuery, responsive design, Bootstrap, and Handlebars**, as well as storage options like local storage, session storage, and indexedDB. The course also covers **React.js, databases like MySQL and MongoDB, server-side programming, user authentication, progressive web apps, the MERN stack (MongoDB, Express.js, React.js, Node.js), and API interaction using JSON and AJAX**. Also, there are additional self-study subjects including **Python, Java, Amazon Web Services, and C#** available.
