Full-Stack Web Developer

I'm Carlos Rivas Juarez, a full-stack web developer and graduate of The Coding Boot Camp at UNC-Chapel Hill, where I honed my skills in HTML, CSS, JavaScript, React.js, Git, and more through interactive virtual classes and hands-on projects. With a strong background in customer service, I excel in communication and problem-solving while collaborating with teams and clients. Fluent in English and Spanish, I adapt well to diverse environments and am dedicated to continuous learning and growth. My work experience spans from assessing vehicle conditions at CarMax to hardwood floor installation and cashier/customer service roles in the food industry. Combining my technical expertise with excellent interpersonal skills, I'm eager to make a positive impact on your team and projects.

EDUCATION

High School Diploma

Unc • Aug 2015 - Jan 2019

Certificate in Web Development

Unc • Chapel Hill, NC, USA • Dec 2021 - Jun 2022

The provided part-time coding curriculum includes both front-end and back-end technologies, giving students thorough training to become full-stack web developers. The curriculum covers computer science concepts that are applied to JavaScript, algorithms, effectiveness, time complexity, big O notation, data structures, browser-based technologies like HTML/CSS, JavaScript/jQuery, responsive design, Bootstrap, and Handlebars, as well as storage options like local storage, session storage, and indexedDB. The course also covers React.js, databases like MySQL and MongoDB, server-side programming, user authentication, progressive web apps, the MERN stack (MongoDB, Express.js, React.js, Node.js), and API interaction using JSON and AJAX. Also, there are additional self-study subjects including Python, Java, Amazon Web Services, and C# available.
